Dear Mr Kamdar,

I am writing this letter to show my keen interest in Parse.ly. I will be quitting my current position at Rakuten, Inc in 2 weeks. I've found your job offer on the HN monthly hiring thread, and found your position as Software engineer to be very attractive (possibility for me to work from Japan, with smart people, on a good technology stack). Along with my Master's Degree in Computer Science from SUPINFO and 8 years' experience in the field of IT, I am confident in my ability to become an essential member for the Parse.ly team.

From my experience in startups such as Aquasys and Alpaca.ai, I've had opportunities to work at every steps of a software development process, from System administration to Front-end development, Management and Mentoring. I have a great disposition for learning, and am always working on improving my productivity and efficiency to allow me handling a number of activities I'm passionate about.

It would be my greatest pleasure to meet with you in an interview to discuss my qualifications and experience in detail. Thank you for your time and consideration, I look forward to speaking with you further.

Sincerely yours,

Adrien Lemaire
