## Experience

**Engineer**, AlpacaDB

Working as a Full Stack engineer at Aquasys, I was able to improve and put into practice my skills in Computer Vision and Machine Learning. I worked on every steps of the development process, from Core Design to Implementation and Testing, with CI & QA, System Administration and Data analysis. This experience allowed me to set new standards on code quality and work efficiency, and allowed me to reach expertise in the productivity area.

- ▷ Labellio, an image labeller & model trainer.
- ▷ Iromo, new shopping experience by searching similar fashion items by color and patterns.
- ▷ Projects for big Japanese customers.

**Director of Technology**, Aquasys

Starting as a Software Engineer, I quickly got appreciated for my dedication and performance, and ended promoted as Director of Technology, supervising all technical operations, making the best out of my teammates skills and mentoring them to increase their efficiency and productivity.

- ▷ Developed a generic framework for market-places such as Uruma-work
- ▷ Hired and Trained freelancers to work on various projects.
- ▷ Managed Odoo (ex-OpenERP) operations.

**Web Developer**, Fry

In this mature company full of smart employees, I was able to level up from a junior developer into a full-fledged Web developer.

- ▷ Frontend integration: HTML4&5, CSS2&3, JS (jQuery, NinjaUI)
- ▷ Backend: Django, PostGreSQL, RabbitMQ, Celery, Nginx, uWSGI, Unicorn
- ▷ Test-Driven development, Kata, Debugging practices

## Education

2006-2011

🌐 France, Canada, UK

**International Master of Science**, Supinfo International University

2009-2010

🌐 USA

**Certificate in Operating Systems Development**, Dominican University of California
